INDEX

ABSORPTION and retention of carotene and vitamin A by hens on normal and low fat rations 199
—— intestinal, of galactose in rat, effect of vitamin B deficiency on 495
—— of dietary phosphorus by rat, influence of aluminum sulfate and aluminum hydroxide upon 111
Acid(s), amino, for chick, soybean protein as source of 385
—— ascorbic, content of ewes' blood, colostrum and milk and effect of ascorbic acid injections 121
—— —— requirements of children of early school age, study of 25
—— deficiency, pantothenic, effect of, on blood lipoids of dog 273
—— linoleic, arachidonic, and linolenic, effectiveness of, in reproduction and lactation 213
—— —— pyridoxine and pantothenic acid in rat dermatitis 225
—— nicotinic, and riboflavin, urinary excretion of, in dogs and rats, effect of level of protein intake upon 295
—— —— content of meat 153
—— —— in foods 235
—— —— pantothenic acid and pyridoxine in wheat and wheat products 167
—— pantothenic, and pyridoxine, protection afforded by, Sensory neuron degeneration in pigs. IV. 345
—— —— linoleic acid and pyridoxine in rat dermatitis 225
—— —— nicotinic acid and pyridoxine in wheat and wheat products 167
—— —— thiamine, riboflavin, and pyridoxine deficiencies, influence of, on nitrogen metabolism 405
Acrodynia, rat, body fats in 393
Action, lipotropic, of choline, relation of B-vitamins and dietary fat to 175
Albino rat, thiamine requirement of, as influenced by substitution of protein for carbohydrate in diet ... 317
Alcohol or whisky, polyneuropathy in thiamine deficient rats delayed by 73
Alcohols, mobilization by, of vitamin A from its stores in tissues 1
ALMQUIST, H. J., E. MECCHI, F. H. KRATZER AND C. R. GRAU. Soybean protein as a source of amino acids for the chick 385
Aluminum hydroxide and aluminum sulfate, influence of, upon absorption of dietary phosphorus by rat 111
Amino acids for chick, soybean protein as source of 385
Analytical values of diets, comparison of calculated with, chemical composition of twenty-two common foods and 41
Anterior pituitary extract, periodic administration of, as affecting metabolism of rats on diets of different composition 535
—— —— —— saline, effects of prolonged daily treatment of normal rats with. I. Sexual differences in appetite, growth and organ weights 469
II. Protein and energy metabolism 481
Arachidonic, linoleic, and linolenic acids, effectiveness of, in reproduction and lactation 213
ARCHER, H. E., M. KRISS AND L. VORIS. Periodic administration of anterior pituitary extract as affecting the metabolism of rats on diets of different composition ... 535
Arginine and leucine, metabolism of, with special reference to respiratory exchange and heat production 547
Ascorbic acid content of ewes' blood, colostrum and milk and effect of ascorbic acid injections 121
—— —— requirements of children of early school age, study of 25
ASHBURN, LLEWELLYN L. See Lowry, Sebrell, Daft and Ashburn 73
AXELROD, A. E. See Potter, Axelrod and Elvehjem 449

BACTERIA, yeast and rats, response of, to peroxide-treated biotin. Intestinal synthesis of biotin in rat 523
BAILEY, ERNEST A., JR. See Satterfield, Bailey, Foster and Hostetler 121
BAILEY, M. I., AND A. W THOMAS. The thiamine and riboflavin contents of citrus fruits 85
Balances, potassium, sodium and chlorine, of pre-school children receiving medium and high protein diets 437
Basal diets either low or high in phosphorus, salt mixture for use with 245
BAUM, W. S. See Clausen, Baum, McCoord, Rydeen and Breese 1
B complex factors, inhibition of symbiotic synthesis of, by sulfonamides 427
BEACH, E. F., D. M. TEAGUE, O. D. HOFFMAN, B. R. MUNKS, F. C. HUMMEL, H. H. WILLIAMS AND I. G. MACY. The sulfur metabolism of children 257
BERRYMAN, GEORGE H. See McVicar and Berryman 235
Biotin in rat, intestinal synthesis of. Response of bacteria, yeast and rats to peroxide-treated biotin ... 523
Blood, colostrum and milk, ewes', ascorbic acid content of, and effect of ascorbic acid injections .. 121
—— lipoids of dog, effect of pantothenic acid deficiency on 273

Body fats in rat acrodynia 393
BOWMAN, ROBERT S. See Kriss and Bowman 547
—— See Voris, Kriss, Marcy and Bowman 469, 481
BRAY, MERLE M. See Hawks, Bray, Wilde and Dye 283
—— See Hawks, Bray, Hartt, Whittemore and Dye 437
BREESE, B. B. See Clausen, Baum, McCoord, Rydeen and Breese ... 1
BRODY, SAMUEL. See Kibler and Brody 461
BROUHA, L. See Johnson, Darling, Forbes, Brouha, Egaña and Graybiel 585
B-vitamins and dietary fat, relation of, to lipotropic action of choline 175

CALCIUM, phosphorus and nitrogen, interrelationship of, in metabolism of pre-school children 283
—— —— —— —— metabolism of young college women 367
Calculated values of diets, comparison of analytical with, chemical composition of twenty-two common foods and 41
CANNON, M. D. See Sober, Manneering, Cannon, Elvehjem and Hart 503
Carbohydrate in diet, substitution of protein for, thiamine requirement of albino rat as influenced by ... 317
Carotene and vitamin A, absorption and retention of, by hens on normal and low fat rations 199
—— —— —— in rat, utilization of 57
Cataract and other ocular changes resulting from tryptophane deficiency 159
Cattle, young, with vitamin A deficiency, cystic pituitary in 15
CERECEDO, L. R., AND J. R. FOY. storage of pyridoxine in the rat 93
CHAMBERS, A. H. The respiratory quotient of the liver. I. Determination of the liver R.Q. in anesthetized dogs. II. Influence of certain diets on the R.Q. 331
Chemical composition of twenty-two common foods and comparison of analytical with calculated values of diets 41
Chick(s), liver concentrate as source of unrecognized vitamins required by 65
—— maintained on heated diet, factors required by 187
—— pyridoxine deficiency in 515
—— soybean protein as source of amino acids for 385
Chicken feathers, powdered, nutritional studies on 399
Children of early school age, study of ascorbic acid requirements of ... 25
—— pre-school, interrelationship of calcium, phosphorus and nitrogen in metabolism of 283
—— —— potassium, sodium and chlorine balances of, receiving medium and high protein diets ... 437
—— sulfur metabolism of 257
Chlorine, potassium and sodium balances of pre-school children receiving medium and high protein diets 437
Choline, lipotropic action of, relation of B-vitamins and dietary fat to 175
Citrus fruits, thiamine and riboflavin contents of 85
CLAUSEN, S. W., W. S. BAUM, A. B. MCCOORD, J. O. RYDEEN AND B. B. BREESE. The mobilization by alcohols of vitamin A from its stores in the tissues 1
Colostrum, milk and blood, ewes', ascorbic acid content of, and effect of ascorbic acid injections 121
Complex factors, B, inhibition of symbiotic synthesis of, by sulfonamides 427
—— vitamin B, effects of diet deficient in part of, upon men doing manual labor 585
Composition, chemical, of twenty-two common foods and comparison of analytical with calculated values of diets 41
Concentrate, liver, as a source of unrecognized vitamins required by chick 65
Content, ascorbic acid, of ewes' blood, colostrum and milk and effect of ascorbic acid injections 121
—— nicotinic acid, of meat 153
Contents, thiamine and riboflavin, of citrus fruits 85
CONVERSE, H. T. See Madsen, Hall and Converse 15
COX, G. See McKay, Patton, Ohlson, Pittman, Leverton, Marsh, Stearns and Cox 367
CRACAS, LOUIS J. See Light, Carcas, Olcott and Frey 427
Cystic pituitary in young cattle with vitamin A deficiency 15

DAFT, FLOYD S. See Lowry, Sebrell, Daft and Ashburn 73
DANN, W. J., AND P. HANDLER. The nicotinic acid content of meat ... 153
DARLING, R. C. See Johnson, Darling, Forbes, Brouha, Egaña and Graybiel 585
DAY, PAUL L. See Totter and Day ... 159
Deficiencies, thiamine, riboflavin, pyridoxine, and pantothenic acid, influence of, on nitrogen metabolism 405
Deficiency, pantothenic acid, effect of, on blood lipoids of dog 273
—— pyridoxine, in chicks 515
—— tryptophane, cataract and other ocular changes resulting from ... 159
—— vitamin A, cystic pituitary in young cattle with 15
—— —— B, effect of, on intestinal absorption of galactose in rat 495
Deficient rats, thiamine, polyneuropathy in, delayed by alcohol or whisky 73
Degeneration, sensory neuron, in pigs. IV. Protection afforded by pantothenic acid and pyridoxine 345
Dermatitis, rat, linoleic acid, pyridoxine and pantothenic acid in 225
Diet(s), basal, either low or high in phosphorus, salt mixture for use with 245
—— certain, influence of, on R.Q. (II). Respiratory quotient of liver. I. Determination of liver R.Q. 331
—— comparison of analytical with calculated values of, chemical composition of twenty-two common foods and 41
—— deficient in part of vitamin B complex, effects of, upon men doing manual labor 585
—— heated, factors required by chicks maintained on 187
—— of different composition, periodic administration of anterior pituitary extract as affecting metabolism of rats on 535
—— protein, medium and high, potassium, sodium and chlorine balances of pre-school children receiving .. 437

Diet(s), thiamine requirement of albino rat as influenced by substitution of protein for carbohydrate in ... 317
Dietary fat and B-vitamins, relation of, to lipotropic action of choline 175
—— phosphorus, absorption of, by rat, influence of aluminum sulfate and aluminum hydroxide upon 111
Dog(s) and rats, urinary excretion of riboflavin and nicotinic acid in, effect of level of protein intake upon 295
—— anesthetized, determination of liver R.Q. in. (I) and II. Influence of certain diets on R.Q. Respiratory quotient of liver ... 331
—— blood lipoids of, effect of pantothenic acid deficiency on 273
—— riboflavin requirement of 449
DYE, MARIE. See Hawks, Bray, Wilde and Dye 283
—— See Hawks, Bray, Hartt, Whittemore and Dye 437

EFFECT(S) of ascorbic acid injections, and ascorbic acid content of ewes' blood, colostrum and milk 121
—— of diet deficient in part of vitamin B complex upon men doing manual labor 585
—— of glucose and sucrose on respiratory quotient and muscular efficiency of exercise 307
—— of level of protein intake upon urinary excretion of riboflavin and nicotinic acid in dogs and rats 295
—— of pantothenic acid deficiency on blood lipoids of dog 273
—— of prolonged daily treatment of normal rats with saline anterior pituitary extract. I. Sexual differences in appetite, growth and organ weights 469
II. Protein and energy metabolism 481
—— of vitamin B deficiency on intestinal absorption of galactose in rat 495
Effectiveness of linoleic, arachidonic and linolenic acids in reproduction and lactation 213
Efficiency, muscular, and respiratory quotient of exercise, effect of glucose and sucrose on 307
EGAÑA, E. See Johnson, Darling, Forbes, Brouha, Egaña and Graybiel 585
ELVEHJEM, C. A. See Potter, Axelrod and Elvehjem 449
—— See Sober, Mannering, Cannon, Elvehjem and Hart 503
—— See Teply, Strong and Elvehjem 167
—— See Waisman, Mills and Elvehjem 187
Energy and protein metabolism. Effects of prolonged daily treatment of normal rats with saline anterior pituitary extract. II. 481
ENGEL, R. W. The relation of B-vitamins and dietary fat to the lipotropic action of choline 175
Evaluation of nutritional status of a population group in Madrid, Spain, during summer of 1941 .. 557
Ewes blood, colostrum and milk, ascorbic acid content of, and effect of ascorbic acid injections 121
Excretion, urinary, or riboflavin and nicotinic acid in dogs and rats, effect of level of protein intake upon 295
Exercise, effect of glucose and sucrose on respiratory quotient and muscular efficiency of 307
Extract, anterior pituitary, periodic administration of, as affecting metabolism of rats on diets of different composition 535
—— saline anterior pituitary, effects of prolonged daily treatment of normal rats with. I. Sexual differences in appetite, growth and organ weights 469
II. Protein and energy metabolism 481

FACTORS, B complex, inhibition of symbiotic synthesis of, by sulfonamides 427
—— required by chicks maintained on a heated diet 187
Fat(s) body, in rat acrodynia 393
—— dietary, and B-vitamins, relation of, to lipotropic action of choline 175
—— low, and normal rations, absorption and retention of carotene and vitamin A by hens on 199
Feathers, powdered chicken, nutritional studies on 399
FIELD, HENRY, JR. See Melnick and Field 131
FOLLIS, RICHARD H., JR. See Wintrobe, Miller, Follis, Stein, Mushatt and Humphreys 345
Foods, common, twenty-two, chemical composition of, and comparison of analytical with calculated values of diets 41
—— nicotinic acid in 235
FORBES, W. H., See Johnson, Darling, Forbes, Brouha, Egaña and Graybiel 585
FORD, ZENAS W., JR. See Sure and Ford 405
FOSTER, CLAIRE. See Jones and Foster 245
FOSTER, JOHN E. See Satterfield, Bailey, Foster and Hostetler 121
Fox, minimum vitamin A requirement of 97
FOY, JOHN R. See Cerecedo and Foy 93
